

**TO WHOM IT MAY CONCERN**

This is to certify that **Maruf Ahmed Rahad** was an employee of Samsung R&D Institute Bangladesh Ltd. (SRBD) from 12 May 2022 to 8 August 2024. He was employed full time (weekly 40 hours) as a Software Engineer under New Computing Experience Group.

During his tenure, Maruf Ahmed Rahad worked on several Samsung Smart-Phone and PC products where he applied his expertise on software design and development. He was a core software developer of several Samsung products and contributed to audio, video and account related features. He has good grasp on Java, Android, XML, C++, C#, OOP and Windows platforms like Win UI, Windows Forms etc. His role and responsibility included but not limited to –

- Requirement Analysis for Application development
- Design and feature development based on specifications
- Source code maintenance and facilitate testing on new or modified systems
- Identifying, troubleshooting, and resolving technical issues to improve application functionality and user experience.
- Working closely with cross-functional teams, including designers, project managers, and other developers, to deliver successful project outcomes in timely manner.
- Contributing to the enhancement of existing systems and introducing new approaches to improve efficiency and effectiveness
- Mentoring new members
- Reporting on software development status
- Project and Idea Innovation

Maruf Ahmed Rahad was an excellent team member & mentor. He consistently demonstrated a high level of professionalism, technical skills, and dedication. He maintained a positive and proactive attitude throughout his tenure. He was quite innovative alongside his R&D works. I wish him every success in his future endeavors.
